Infotainment

No compromise on safety

Many of the parts produced by the «Automotive | Infotainment» division are designed to meet the highest safety standards. Oskar Ruegg counts on wide experience in producing even the most complex parts using high-strength stainless steel. The parts are capable of enduring extreme environmental stresses – such as temperature fluctuations, vibrations and humidity – without being damaged. Even the packaging requirements are high and varied.

Oskar Ruegg has a solution for your needs, fast and perfect.

Take our word for it.
